

**Field Forester Position  
Trout Mountain Forestry  
Portland, Oregon**

Trout Mountain Forestry is seeking an entry level field forester to assist in the management of family forestland and municipal client properties in western Oregon.

We specialize in long-term, conservation-based forest management. Our clients include family forest owners, municipal watersheds, and youth camps located throughout western Oregon and Washington. We supervise harvests according to strict environmental standards, and provide a sustainable supply of high quality wood products while working with our clients to achieve the most economically viable and ecologically beneficial options for managing their land.

The field forester will plan and implement a wide variety of property management tasks, including timber inventory, management plan preparation, GPS data collection, GIS mapping, timber sale layout and tree marking, timber sale administration, contractor supervision, regeneration planning and weed control, and public outreach. The position will be based out of our Portland office and will require travel throughout northwest Oregon. The field forester will work closely with Trout Mountain Forestry's three partners to become well versed in our approach to forest management.

**Required Qualifications:**

Interest in family forestry

Dedication to sustainable forest management principles

BS or advanced degree in Forestry

Some proficiency at basic forestry skills, including cruising, mapping, and GIS

Excellent verbal and written communication skills

Capable of physically demanding work

Independent, self-motivated, works well as part of a team

Ability to organize and prioritize a wide diversity of tasks in a fast-paced work environment

Reliable vehicle (4wd preferred)

**Preferred Qualifications:**

Familiarity with FSC (Forest Stewardship Council) Certification

Field experience in forest management, forest operations, restoration, or related fields

Proficiency with Excel, Word, PowerPoint, ArcInfo, database, and forest growth/yield software

Specialty in GIS or forest inventory

Familiarity with forest carbon offsets, ecosystem services, and conservation easements

Compensation for the position will be based on experience.

Applications are due by March 26<sup>th</sup>

To Apply please send a cover letter, resume, and three references to:

Marla Pallin, Trout Mountain Forestry, 721 NW 9<sup>th</sup> Ave, Suite 228, Portland OR 97209
